WHAT WE OFFER

GLASS & ALUMINIUM

We specialize in the procurement, supply, and professional installation of high-quality Glass and Aluminium products for a wide range of residential, commercial, and industrial projects. Our focus is on delivering reliable, aesthetically appealing, and durable solutions sourced from trusted manufacturers and suppliers.

Our team of experienced engineers, project coordinators, and installation specialists ensures that every product is precisely selected, delivered, and installed to meet the exact requirements of our clients. We manage the entire process — from sourcing premium materials to on-site installation — guaranteeing efficiency, safety, and superior finish.

We handle an extensive range of products, including Aluminium doors and windows, sliding systems, structural glazing, curtain walls, ACP cladding, frameless glass partitions, skylights, shower enclosures, and handrails. Each solution is tailored to the client's specifications, combining functionality, elegance, and durability.

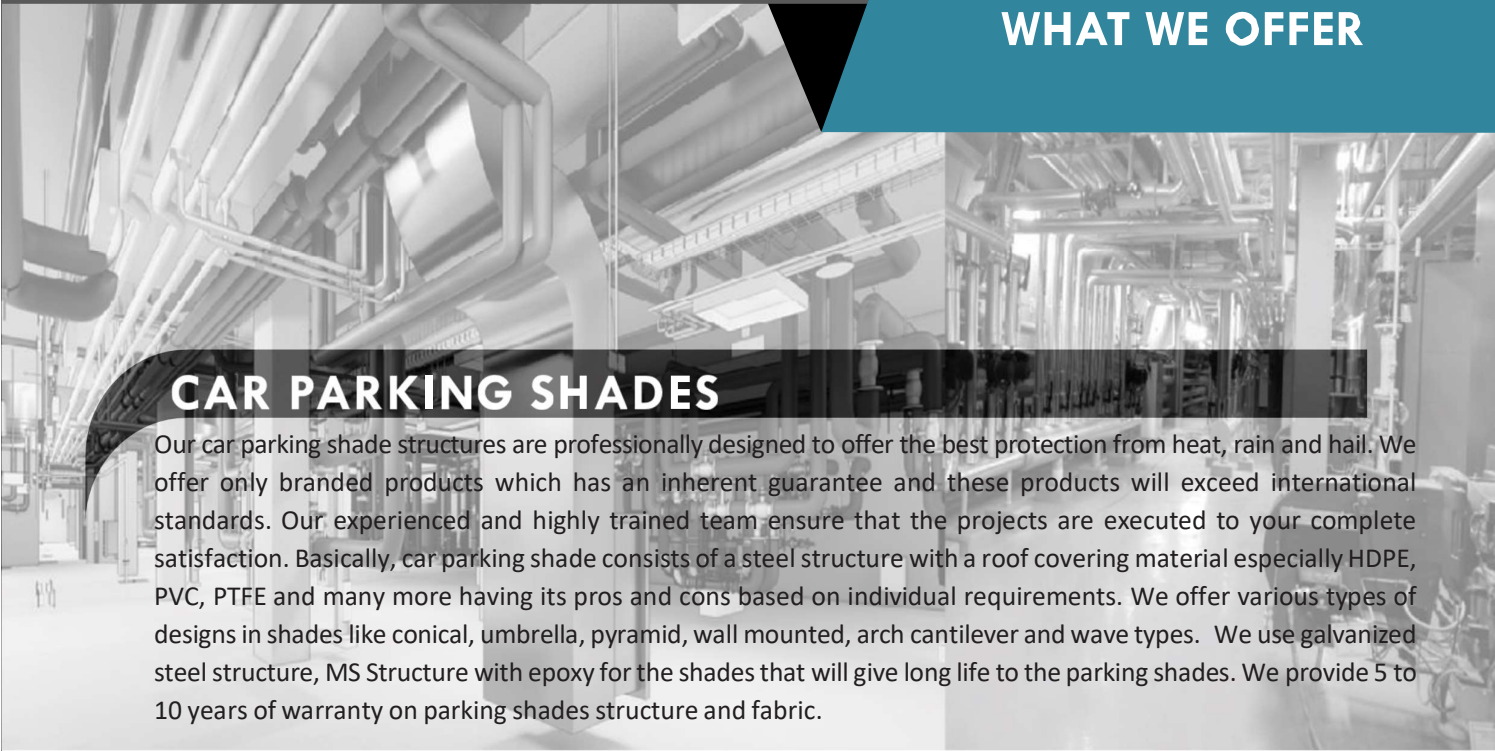

By focusing on quality procurement and professional execution, we provide solutions that enhance architectural appeal, optimize performance, and ensure long-lasting satisfaction. Our team is committed to delivering projects on time, maintaining precision, and providing customized solutions to meet diverse client needs.

CIVIL WORKS

We believe construction is more than just creating a built environment. It is also about building structures that inspires wonder, creating spaces that help people thrive and also about engineering strength. The extensive variety of construction projects that we have been involved in includes the following small concrete repairs, villa extensions & modifications, commercial alterations & refurbishments, floor & wall tiles, paving of interlocks and repairing of concrete cracks. We work closely with recognized and experienced consultants to develop the client's design in conjunction with a value engineering process. This ensures that the end product not only meets the highest quality standards but also all of the client's requirements.

SS & MILD STEEL

We undertake all types of stainless steel and mild steel fabrication and installation works like industrial structural steel works, warehouse, handrails, battery cabinets, ladders etc. Our team has experienced welders, engineers who provide quality job within committed delivery period. Among our competitors we are well known for our quality, cost effective pricing and prestigious projects with government bodies. We are also doing Architectural Metals in stainless steel that enhances its nobility and diversity with new textures, patterns, customized look and feel that allows you to give life for your ideas and sublime creativity.

WHAT WE OFFER

CAR PARKING SHADES

Our car parking shade structures are professionally designed to offer the best protection from heat, rain and hail. We offer only branded products which has an inherent guarantee and these products will exceed international standards. Our experienced and highly trained team ensure that the projects are executed to your complete satisfaction. Basically, car parking shade consists of a steel structure with a roof covering material especially HDPE, PVC, PTFE and many more having its pros and cons based on individual requirements. We offer various types of designs in shades like conical, umbrella, pyramid, wall mounted, arch cantilever and wave types. We use galvanized steel structure, MS Structure with epoxy for the shades that will give long life to the parking shades. We provide 5 to 10 years of warranty on parking shades structure and fabric.
